STUNTS & ABILITIES (DETAILED)

Savant

Special: requires SIM State Stunt or Apotheosis Augmentation. You hacked the mandated restrictions. Gain SINC Skill 1 (improve normally), one Savant Program, and a new Disadvantage Aspect reflecting side effects. At Milestones you may trade -1 from a Skill (not below 0) to remove that Aspect.

Skilled

Increase one non-Physical Skill by +1 (Pure may apply to a Physical Skill, but must replace this Stunt if ever resleeved or becomes a SIM). May be taken multiple times; no Skill may exceed 5 via this Stunt. At a Major Milestone, you may shift the +1 to a different Skill.

Geek Speak
